

Our Innovative Solutions

Make The World A Smaller Place

ABOUT US

Established in 2010, ETL Colombo has evolved into a fully-fledged freight forwarding company in Sri Lanka. As an International Freight Forwarding Company, we are headquartered in Sri Lanka, with a global presence through branch offices and agency partnerships. Our commitment is to provide you with a comprehensive range of Logistics Management Services delivered right to your doorstep.

Over the years, we have meticulously built a reputation in both local and global markets. Our success is attributed to offering a reliable, efficient, cost-effective, and flexible service catering to all logistics and shipping needs. From the initial stages of packaging, pick-up, transportation, and custom clearance to freight forwarding, warehousing, and competitive sea and air freights, we handle every aspect with precision.

Embark on an unparalleled experience of true world-class service with ETL Colombo, where our dedication to excellence is evident in every facet of our operations.

OUR SERVICES

Sea Freight

Sea Freight an integral component of ETL Colombo's comprehensive logistics solutions. Our extensive global network ensures seamless import and export operations. Whether your shipment demands Less than Container Load (LCL) or Full Container Load (FCL), our well-trained professionals are committed to evaluating and presenting the best delivery options tailored to your specific requirements.

Leveraging the considerable buying power of ETL Colombo, we extend competitive pricing for importers and exporters, facilitating transportation to and from any part of the world. This advantage includes priority space allocations, especially during peak seasons. Below are some of the key functions that ETL expertly handles:

- FCL (Full Container Load): Comprehensive solutions for containerized shipments.
- LCL/NVOCC (Less than Container Load/Non-Vessel Operating Common Carrier): Efficient handling of partial container shipments.
- Project Cargo: Specialized logistics solutions for complex and large-scale projects.
- Bulk Liquid (Tankers/Flexi Bags): Expertise in transporting liquid cargo through tankers or flexible bags.
- Clearing and Forwarding: Streamlined customs clearance and forwarding services.
- Bonding: Secure management of bonded cargo.
- Entreport: Facilitation of goods in transit without customs duties.
- MCC (Multi-Commodity Container): Handling diverse commodities in a single container.
- Cross Trade: Managing shipments between two different countries without involving the home country.

Air freight

At ETL Colombo, we tailor air-freight solutions to meet your specific needs, recognizing the sensitive nature of air cargo. Whether it's a single carton or a chartered load, every shipment receives the same meticulous attention and care. Our in-house experts provide professional advice, and we forge strong relationships with major carriers on all operating lanes to ensure our clients benefit from flexibility and guaranteed space.

Land Transport - Cross Trading

For customers engaged in international trading transactions involving countries other than those where their products and services originate or are destined, ETL Colombo provides comprehensive cross trading business and logistics solutions. Our goal is to offer a competitive edge in the ever-demanding landscape of international trade while maintaining discretion between sellers and ultimate buyers. Within the same corporate umbrella, the subsidiary sister companies of ETL Colombo boast a fully-fledged trading arm actively involved in the trading business. With guaranteed services encompassing production-based exports, buyer representations, and buying office services, our group has achieved notable success and market share in various areas.

Some of our enhanced cross trading tools include:

- Indenting and Sourcing: Efficient procurement and sourcing services.
- Cross Trading: Seamless handling of transactions between different countries.
- Value Addition and Entrepot Trade: Enhancing product value and facilitating goods in transit without customs duties.
- Re-packing: Tailored repackaging services.
- Trashipment: Streamlining the transfer of goods from one vessel to another during transit.
- Trading in Various Sectors:
 - Energy
 - Food Stuff and Commodity Exports
 - Garments and Accessories
 - o Footwear and Rubber Products
 - o Tyres

Our group has successfully handled business in these areas, proudly acknowledging our success and the market share we presently enjoy. Additionally, we specialize in Project Cargo Logistics, Container Transport, Goh/Liquid Transport, Distribution, and the transportation of turbines, reactors, transformers, generators, manufacturing equipment, construction equipment, and heavy/oversized machinery.

Supply Chain Management - Warehousing

ETL Colombo excels in Purchase Order Management, a crucial aspect that significantly enhances your organization's procurement processes. Our expertise in this area enables your business to streamline purchasing procedures, enhance visibility, exercise better control over spending, and ensure the seamless acquisition of essential goods and services for optimal operational efficiency.

Our dedicated team is prepared to assist you in every step of the purchase order lifecycle, from creation and issuance to meticulous tracking and comprehensive management. By leveraging our Purchase Order Management services, your organization can experience a more efficient and organized procurement workflow.

Notably, ETL Colombo has had the privilege of providing these services to esteemed brands such as Levi's, Walmart, C&A, and Amazon. This endorsement from top-tier brands reflects our commitment to delivering high-quality and reliable Purchase Order Management solutions tailored to meet the unique needs of each client. Trust ETL Colombo to optimize your purchasing processes and contribute to the overall success of your operations.
